- **Look in the mirror**
- **Look out of Window**
- **Look into the crystal ball**
Corporate Masterclass: The Art and Science of Impact Measurement; Theories and Practice

Workshop Facilitators:

Grant Thornton Team

Objective:
Are you still trying to resolve the puzzle of what, when, and why of impact and similar evaluations? Or have you conducted one in the past but not satisfied with the outcomes?
Evaluation of social development programs is not contemporary and has a varied set of approaches, but with the evolution of development activities to meet the societal need, it has become a key ingredient of Result-based Approach for any successful social transformation program. Moreover, the advent of CSR Rules has opened a large array of expectations of internal and external stakeholders to not only undertake these evaluations periodically but also deploy comprehensive and innovative models with the right use of technological solutions.
The masterclass will empower to solve the puzzle of evaluation, through practical case study and example led approach.

Please note: Registration to this masterclass is based on ‘by invite’ only. If you are selected to attend the masterclass, you will receive an email confirmation within 7 working days
