

Introducing CSR Outreach and support services-NGOBOX Edge

As a CSR implementing partner, technical partner or service provider most of us do invest huge resources (both human and financial), time and energy to identify, understand and reach out to companies/CSR foundations to pitch ideas/project and products for CSR partnerships. It requires constant efforts, follow ups and most-importantly reach to a right contact point before you make a beginning pitch.

All of us do not have dedicated resources and time to engage in that process. To make your life easy and set the process right, we, the Team NGOBOX, have come up with a few services under 'NGOBOX Edge' plan for a few privileged organizations.
